Exciting News about the Labrador Adopt-A-Class Program

There are 21 classes eagerly waiting to be adopted throughout Labrador. Nadine Fenton, IODE Canada Labrador Adopt-A-Class Convenor has just announced that classes from kindergarten to grade 12 are available. Class sizes vary from six to 28 students.

Most of the schools are located in small or remote communities without ready access to supplies. Materials for the year are delivered by coastal ferry during the summer months.

Once your connection has been made, ask the classroom teacher for a wish list. The list might include magazine subscriptions, games/puzzles, art supplies or snacks. You may consider sending IODE congratulation certificates, supplies for a year-end party or books; the only limit is your imagination. Treats for the students and the teacher are always appreciated. Teachers have reported that the whole student body gathers to watch the IODE package being opened by the adopted class. The number of parcels you send is entirely up to you, it can be once or twice a year, or as often as you wish.

IODE has always been about making a difference; this is your opportunity to be a goodwill ambassador, making lasting impact on the lives of these young students. This rewarding national program has made connections between IODE Members, individuals, and family members to adopted classes in Labrador. Please contact Nadine Fenton, IODE Canada Labrador Adopt-A-Class Convenor at nadinefenton@me.com or call the National Office to learn how you can adopt a Labrador Class.

Founded in 1900, IODE Canada is a national women's charitable organization dedicated to enhancing the quality of life for individuals through education support, community services and citizenship programs.
